Pet parents find it very stressful to deal with the onset of acute GI upsets in their pets; they are seeking a quick resolution, and turn to you and your team to find a solution. Even though antibiotics have their place for treating some gastrointestinal diseases, they also negatively affect the microbiome. For mild, uncomplicated acute GI upsets, all-natural alternatives are available, which have been proven helpful in the resolution of acute GI upsets without causing any harm to the gut microbiome. New tools developed by veterinarian specialists are at your disposal to assist in reducing the workload for managing mild uncomplicated acute GI upsets.

During the webcast, veterinarian specialists with expertise in gastroenterology, infectious diseases and education will share how to engage your entire team in the management of mild, uncomplicated acute GI upsets. This approach is adaptable to all clinics, and offers favourable results for you, your clients and their pets.

**Join us to learn how to be part of the change and acquire additional tools  
for the management of mild, uncomplicated acute GI upsets.**

**Susan Kilborn**  
DVM, DVSc, Dipl. ACVIM

Dr. Kilborn received her DVM degree from the Western College of Veterinary Medicine at the University of Saskatchewan. She completed a post-graduate degree (DVSc program in Clinical Studies) at the Ontario Veterinary College. She became board-certified at the American College of Veterinary Internal Medicine in 1995. Dr. Kilborn currently sees referral internal medicine cases at Orleans Veterinary Hospital in Ottawa, and consults (internal medicine and nutrition) for Antech Diagnostic Laboratories. She has been the Ottawa region and One Health director for Community Veterinary Outreach since 2008. Dr. Kilborn was the recipient of the Canadian Veterinary Medical Association Small Animal Practitioner Award in 2015. Community Veterinary Outreach is a Canadian registered charity that provides pro bono veterinary care to pets of homeless, street-involved, and vulnerably-housed adults and youth, while providing health and social services for the clients. For more information, please visit [vetoutreach.org](http://vetoutreach.org).

**Tatjana K. Mirkovic**  
BSc, DVM, Dipl. ACVIM

Dr. Mirkovic was born and raised in Manitoba. She received her DVM degree in 2000 from the Western College of Veterinary Medicine, University of Saskatchewan. She then completed an internship in Small Animal Medicine and Surgery at the Atlantic Veterinary College, University of PEI, followed by a residency in Small Animal Internal Medicine at the University of Tennessee College of Veterinary Medicine in Knoxville, Tennessee. Dr. Mirkovic became a Diplomate of the American College of Veterinary Internal Medicine in 2004. Since returning home to Canada in 2004, she has worked as a specialist in small animal internal medicine for seven years at a large referral-only specialty hospital in Vancouver, Canada West Veterinary Specialists and Critical Care Hospital. Since January 2012, she has been providing mobile internal medicine consultation and endoscopy services at primary veterinary care clinics in the Greater Vancouver Region of BC along with locum services at referral hospitals. She has spent a great deal of time working directly with primary care veterinarians and understands the daily ins and outs of general practice. Dr. Mirkovic lives in Port Moody, BC. In her spare time she enjoys spending time in the great BC outdoors, road cycling, travelling and spending time with her two best friends - her husband and her Labrador retriever.

**Irene Moore**  
DVM, MSc, BSc (Agr)

Dr. Moore graduated from the Ontario Veterinary College in 1986 and worked in mixed animal practice for eight years. Since 1994, she has had numerous roles at the University of Guelph, Ridgetown Campus, including instructor, animal colony manager, coordinator of the Veterinary Technology Program, and associate director (academic) from 2007–2018, where she supervised all academic programs at the campus. Dr. Moore has also been very involved in a number of committees and associations, both on and off campus. She is past president of several veterinary-related organizations, including the Ontario Veterinary Medical Association, the Association of Veterinary Technology Educators and the Ontario Veterinary Technician Educators. In 2002, Dr. Moore was honoured by the Ontario Association of Veterinary Technicians when she received the O.A.V.T. Veterinary Appreciation Award. In January 2017, she received an Outstanding Veterinarian Award from the Ontario Veterinary Medical Association for her contributions to the veterinary profession.
